

Score benches and Indicators

Score benches are designed and manufactured with safety and practicality in mind. Constructed of a strong steel frame with MDF coverings and a white melamine top, our benches are able to withstand the rigours that indoor sporting equipment receives.

Benches are available in:

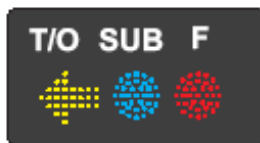

- 2 Person (1200mm)
- 3 Person (1800mm)
- 4 Person (2400mm)
- 5 Person (3000mm)
- 6 Person (3600mm)

All Benches include quality lockable castor wheels.

Under bench storage via lift-up benchtop is available as an option.

Now with optional 'Bench Indicator Modules' which include the following (for each team):
 Time-out Request Arrows
 Substitution Request Indicators
 Team Fouls indicators showing when maximum allowable team fouls is exceeded.
 Possession Arrows

Each of these indicators is controlled via the IA-CC10 Control Console, not manual switches. This allows the console operator to display the indicators when required quickly and easily.

The indicator modules are recessed into to face of the score bench with a mat perspex cover.

Benches are usually manufactured in "Light Gray" unless a colour is specified.

Scoreboards can be built into the face of any bench.
