## Essentials Wall Mount Basketball

HiTech Sport's Essentials Basketball range is an economical version of the FIBA certified International level systems used in big stadiums.

Designed for use in schools, small community centres and other venues where top line product is not required, the Essentials range has been engineered to allow flexibility in installation and a quality product at a lower cost.

Essentials products do not come with a wide range of upgrade options. They include steel support arms (no colour options), a 40 mm thick full size, fibreglass backboard with hard wearing gel coating for optimum ball rebound over time and fixed ring. Upgrades such as spring loaded rings, backboard padding, height adjustment **may not** be available. Please check with Hi Tech Sports as this system is designed to provide a quality product based on international systems, while keeping prices to a minimum.

Maximum projection from the wall is 3.6 m. Systems are designed to mount onto 150 x 150 SHS beams (or 125 x 125 mm SHS with packer. Engineering certification on beams is not provided as it is site specific).

**Product Code: BB-ESW**

Current as of 1 May 2010
