Re-

## Protective Wall Pads

Designed and manufactured to meet the worlds most exhaustive regulations, the HiTech Sports range of wall pads far exceed the standards of products previously available in the South Pacific.

With a choice in different cushioning constructions and densities, the range offers budget options as well as systems designed and tested to meet stringent international impact absorption requirements.

Pads are available in a wide range of colours and are finished with a leather grained vinyl cover that is easy to clean and offers minimal abrasion.

Mounted on OSB backing boards, these pads never sag like unsupported budget pads, and can be permanently screwed to the walls — without having to screw through the face of the pad and leaving a dangerous screw head for users to hit, or can be installed with concealed aluminium channels for a completely hidden attachment, and if required ease of removal.

Fire resistant pads are also available in the Stadia range

### Options:

**WPES**      *Essentials Wall Pad*  
**WPST**      *Stadia Wall Pad*

**WPRSJ**  
**WPSU**

*"I Beam" Wall Pad*  
*Stadia Ultima fire resistant wall pad*
