

Finally – A True Outdoor Surface For **NETBALL!**

Netball has long searched for an outdoor surface designed to cater for the specific demands of the sport. While indoor stadiums have sprung timber floors, outdoors netballers are expected to play on dangerous hard courts. Nothing more than a concrete or asphalt car park - sometimes with a thin coloured paint topping.

PowerGame™ offers an alternative, combining timber floor performance with the latest technology to create a cutting edge outdoor surface.

The Jamaican National Team practice on **PowerGame™**

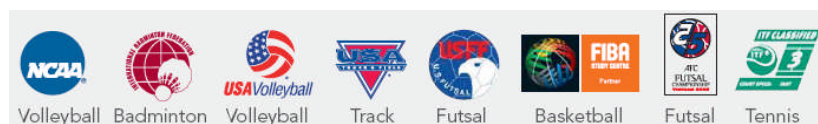

PowerGame™ offers:

- Consistent ball bounce (equivalent to indoor surfaces)
- 13 mm thick system with high shock absorption, similar to timber floors used in international competition.
- A Free draining surface. Play as soon as the rain stops without any puddles
- Lateral forgiveness. The surface actively reduces stress on the body when players stop to reduce the risk of rolled ankles and twisted knees.
- No Cracks – Power Game won't crack like traditional hard courts.
- Cool Play – air flows under the surface reducing high surface temperatures
- A 10 year warranty

PowerGame™ doesn't require any specific base preparation. It can be laid directly over any hard, level base (ie existing tennis courts, car parks etc). Choose from a range of 20 colours and add 2 tone finishes at no extra cost.

PowerGame™ is approved by the following International and National Sporting bodies:

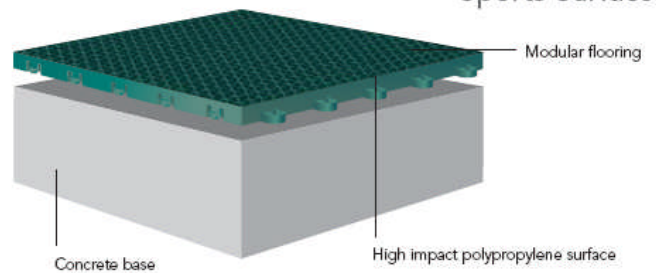

THE UNDISPUTED CHAMP FOR OUTDOOR SURFACES

PowerGame™ represents a quantum leap forward in cushioned outdoor surfaces. It is the latest advance in a range boasting over 50,000 installations world wide, that has continually evolved since 1974.

PowerGame™ is so innovative in its scientifically driven design that it continues to surpass the requirements of even the most demanding coaches, players, architects and builders with its biomechanical friendliness, ease of installation and flexibility in elite facilities. With virtually no maintenance, **PowerGame™** is unrivalled when it comes to safety and performance.

PowerGame™ Sports Surface

SYSTEM TYPE	Modular- Polypropylene
BALL BOUNCE	ASTM F1551 sec. 31: 101.8%
ROLLING LOAD	170 psi
FRICTION	ASTM C1028: Dry / Wet 0.53 / 0.55
SHOCK ABSORPTION	ASTM F 1292* 2 feet drop height pass
SURFACE PACE	ITF CS/01/01-05-133: 52.1 (Fast Surface)
ABRASION RESISTANCE	ASTM D4060: .31 grams
TILE DIMENSIONS	12" x 12" x 5/8" (30.5cm x 30.5cm x 15.8mm)
COLOR AVAILABILITY	Bright Blue, Burgundy, Dark Blue, Evergreen, Gray, Clover, Grape, Bright Red, Titanium, Sand, Mustard, Steel Blue, Green, Tennis Blue, Granite, Earth, Terra-Cotta, Kiwi, Brick Red, Black Special orders available

SURFACE BENEFITS

- Lateral Forgiveness™ – Helps reduce Joint stress and fatigue.
- Fast speed rating from the International Tennis Federation
- Patented Design – a uniform layer surface that helps whisk water away from the court while providing superior ball bounce and traction.
- Highest safety rating – Industry leader in minimising skin abrasion and providing surface impact protection.
- **PowerGame™** provides near identical ball bounce as concrete (essential for Basketball, Netball and Tennis) while providing best in class, comfortable surface for active and repetitive play.
- Cool under foot – elevated structure allows air to circulate rather than bake.
